

COOPERATIVE **EUROPEAN GRAPEVINE MOTH (EGVM)** QUARANTINE PROJECT
COMPLIANCE AGREEMENT for use with Master Permit QC 1269

EXHIBIT 1269 B- HARVESTER: Bulk Grapes For Crush

**Provisions for Intrastate Movement of Bulk Grapes for Crush
Produced Inside the EGVM State Interior Quarantine Area**

Establishment agrees to the following:

1. Ensure the **grower*** is operating in accordance with Master Permit QC 1269 under compliance with the Project.
2. Ensure bulk grapes for crush are transported by a **hauler*** operating in accordance with Master Permit QC 1269 under compliance with the Project.
3. Ensure bulk grapes for crush are destined to a **receiver*** operating in accordance with Master Permit QC 1269 under compliance with the Project and/or the receiving County Agricultural Commissioner.

***Project approved growers, haulers and receivers operating in accordance with Master Permit QC 1269 can be verified online at: http://www.cdfa.ca.gov/phpps/PE/InteriorExclusion/egvm_quarantine.html**

4. Unfermented pomace (solid remnants of grapes after pressing, which contains the skins, pulp, seeds, and stems of the fruit) is regulated as bulk grapes. Unfermented pomace not handled in a manner approved for bulk grapes should be treated as green waste. All green waste should be handled as prescribed in Appendix 1 or as specified below (see "special instructions"). **Appendix 1 is available online at: http://www.cdfa.ca.gov/phpps/PE/InteriorExclusion/egvm_quarantine.html**
5. Ensure all equipment (bins, barrels, machinery, gondolas, etc.) used for vineyard maintenance and harvesting is thoroughly cleaned of all host material and debris year-round *and* prior to leaving the growing premise.
6. No growing equipment (such as stakes and poles) may be removed from the growing premise unless equipment:
 - a) has been stored on the property no less than 60 feet away from any EGVM host material for a minimum of nine months prior to relocation, or
 - b) is going directly to a landfill located within the quarantine area, or
 - c) is handled in a method approved by the Project (see special instructions below).
7. Ensure all employees receive training to be compliant with all specifications of this compliance agreement exhibit.

Shipments found to be in violation of the above stipulations are subject to being held, rejected, destroyed, or subject to other prescribed actions at the discretion of the Project.

SPECIFIC INSTRUCTIONS: _____
